Chief, Economic Research
Chief, Industrial Division, ORR

28 Dec. 1956

Submission of Project 34.1638

1. The above referenced project is well written and should be of wide interest in the intelligence community. Among other things this paper suggests that further detailed work on industrial dispersion in the USSR could profitably be undertaken.

2. The paper takes on added significance because of present Soviet discussions of investment and the reorganization of the planning group.

25X1A9a

3. I concur with [REDACTED] recommendation that this paper be published as an Intelligence Memorandum.
